About Us

UNAB Technologies Private Limited a division of Ahalya Special Purpose Invention & Research Electronics Technologies - established in 1995, formerly MIDEER SERRVE is engaged in the manufacture and export of different Medical, Industrial, Electrical, and Electronic units

We export few of our products along with the OEM supplies. We have a vast web of dealers that allows us to serve the needs of private as well as government sectors including health departments. Undertake the projects for developing special purpose equipments. For our vast product array, we do servicing also. Along with our hi-tech infrastructure, we follow a strict quality policy to ensure faultless products.

Our Core Strength – Customization

Is the core strength of our products and business applications. Every single product offered by us, is designed and developed according to the specific requirements of our esteem clients.

We request our clients to provide us with their needs and requirements. As soon as we receive these, we start the process of designing and developing product(s). Throughout the development of the customized products, we maintain a constant communication with our clients.

Customized products have played a crucial role towards the success of the company. As it is our core strength, we have ensured to possess an infrastructure to successfully produce faultless customized products.

Infrastructure

Our well equipped infrastructure is one of the key strengths which allow us to fulfill the customized requirements of our clients. It comprise of following:

In-House Manufacturing Plant

Design Unit

The manufacturing plant is spread over an area of 2000 Square feet and has an installed capacity of 3000 units. Additionally, we also have the option of outsourced manufacturing, to successfully fulfill the bulk orders, within the stipulated time frame.

Our design unit is well equipped with all the required facilities to custom design the products. The unit incorporates various tools and equipments; and is managed by proficient experts. This allows our customized products to be designed strictly as per our clients' choice of specifications. Our infrastructure also includes different departments such as:

R&D	Production	Quality	Storage
Packaging	Purchase	Marketing & Sales	Accounts

Quality – Our Forte

Being the forte of the company, quality is ensured in every aspect of our business proceedings. Starting from obtaining raw materials through the development of products till their dispatch; strict quality standards are ensured at every stage.

“Quality – Our Forte”, this jingle has enable us to acquire a vast base of clients
