Profile

Established in the year **1992**, we, “**S. M. Engineering Works**”, are one of the leading manufacturers, suppliers and exporters of a wide array of **Hotel & Restaurants Kitchen Equipments**. These products are highly acknowledged for their attractive colors, elegant designs and corrosion & abrasion resistance. Available in variegated sizes and designs, these are in line with the internationally accepted norms and standards.

Our client-centric approach and optimum quality have enabled us to become one of most sought after organizations in the industry. Our professionals have many years of experience in the domain and they rigorously attempt to meet the specific needs and demands of the clients. They make proper utilization of our advanced manufacturing unit, which also helps us in developing the products at a prompt pace with any compromise in the quality. To delight our clients, we also provide those customized solutions and value-added services like installation and maintenance. Owing to all these factors and our adherence to transparent business policies, we have been able to achieve a strong client base in the **Indian Subcontinent**.

Under the able guidance of our mentor, '**Mr. Moinuddin N. Sayyed**', we have gained a phenomenal success in this domain. Owing to his farsightedness and sharp business acumen, we have been able to expand our business venture and meet the set organizational goals and objectives.

- Sales and marketing professionals

Our Infrastructure

We have set-up a sound infrastructure in our unit, which helps us in catering to the diverse requirements of our clients timely. It is well-facilitated with all the requisite amenities and machines that help us in executing different production activities as well as storage effectively. Our infrastructure is divided into different sections such as the production unit, quality control unit and warehouse section. All these units are supported by a team of qualified and experienced professionals, which makes judicious utilization of the available resources. The production unit is installed with latest machines and plants to manufacture products that are of international quality standards. Some of these machines are as follows:

- Drilling machines

- Bending machines
- Grinding machines
- Special purpose machines

Our professionals also ensure that the units are timely upgraded, so as to keep them in accordance with the latest standards.

Quality Assurance

We are committed to offer high quality products to our clients. For this, we have an in-house quality control unit, which thoroughly checks the manufacturing processes as well as the finished products. It is backed by qualified and experienced professionals, who conduct various tests and checks to ensure optimum quality of the products. From the stage of procurement of raw material to manufacturing till final delivery, they inspect every single aspect in order to offer a flawless range of products. Some of the parameters that our quality controllers follow while undertaking the tests are as follows:

- Hygiene
- Dimensional accuracy
- Corrosion resistance
- Safety

Warehouse & Packaging

We have developed a well ventilated and spacious warehouse unit that enables us to store bulk of products. Installed with advanced arrangements such as fire safety, stock lifting and appropriately labeled different sections, the unit facilitates us to store the quality products with ease. Besides, it is managed by a team of skilled warehouse personnel, which also keeps a track of the products stored and delivered. Owing to its strategic

location in Mumbai, it is also well connected with roads.

We also have a team of skilled packaging staff, which assists us in taking maximum care at the time of packaging. They ensure the use of excellent quality packaging material that avoids any type of damage during loading, unloading and transit.

Client Satisfaction

To cater to the diverse needs and demands of our clients, we follow a well-defined procedure. Our professionals are highly experienced and work in tandem with the clients to fulfill their exact requirements. We also have qualified quality controllers, who conduct various tests to ensure the international quality standards of the products. Apart from this, we also provide customization facility for maximum benefits of our products. Moreover, we offer value-added services to our clients like installation and maintenance of the products for their proper functioning. Owing to all these factors, we have been able to develop a long term and cordial relationship with our clients, situated in the **Indian Subcontinent**.
