

**GALVANISED  
WIRE &  
STRANDS**

FOR POWER SECTOR

[ushamartin.com](http://ushamartin.com)

 **usha martin**

The Wire and Wire Rope Division of Usha Beltron Ltd. Is an integral part of the globally acclaimed Usha Martin Group, active in steel wires, steel wire ropes; high carbon alloy and speciality steel wire rods and bars; telecom cables and software; oil drilling services and worldwide distribution of its products.

Our ACSR Core Wire and Strands help reinforce conductors in the Power sector worldwide. These high tensile galvanized steel wires or strands are also used as earthing members for all overhead transmission lines. Also cables like XLPE, PVC, Power and Control Cables etc. require armouring with either round or formed mild steel galvanized wires.

Our wire/strands and earthwire strands are produced from the finest quality high carbon wire rods which are pickled and cooled in a state-of-the-art, fully automatic pickling plant. They are then cold drawn through meticulously die drafts and are finally patented and galvanized inline to produce a smooth surface. A uniform and adherent zinc coating ensures long field life under severe atmospheric conditions. The intricate thermomechanical controls in process technology ensure uniform tensile strength and guarantees torsion and elongation properties. Cable armouring formed wires are produced in rolling mills equipped with precision rollers to ensure perfect curvature and trouble free rapping of PVC over the armouring wires.

Behind our international manufacturing standards are our dedicated machines and ever attentive team of experienced professionals. Together, they have made us renowned as comprehensive, reliable and quality conscious solution provider to the Power sector.

# Galvanised Steel Core Wire for Aluminium Conductors (ACSR Wire)

**End Use : Aluminium Conductors Steel Reinforced  
(for overhead power transmission)**

Specifications : BS-4565, ASTM-B-498/88, IS-398/PART-2/96, IS-398/Part-5/92, Powergrid specification and as per customers' specification.

Size Range Nominal Diameter	Minimum UTS			Size Tolerance		Minimum Elongation % GL=200mm	Minimum Torsion GL=100x Diameter
	BS-4565 (mm)	ASTM B-498 (kg/mm <sup>2</sup> )	IS-398 Part-2 (kg/mm <sup>2</sup> )	ASTM B-498 (mm)	IS-398 Part-2 (±mm)		
1.18-1.32	142.8	148	-	+0.038	-	4	18

2.73-3.15	240	244	240	3.0	130-140	21/23"
3.16-3.55	250	259	250	3.0	140-150 or 280-300	23/27"
3.56-4.25	260	274	275	3.0	140-150 or 280-300	27"

Note:

1. Size tolerance as per British standard is ±2% of wire diameter. However more restricted size tolerances as per specific customer's requirements can also be maintained
2. The above mentioned values of UTS, Elongation, Torsion and Zinc Coating are before stranding. After stranding, these values are to be modified as below:
  - a) UTS to be reduced by 5%
  - b) Elongation to be reduced to 3.5% minimum instead of 4%
    - c) Torsion to be reduced to 16 instead of 18
    - d) Zinc coating weight to be reduced by 5%
3. We can also produce as per other international standards and /or as per specific customers' requirements
4. We can also produce 2.54 mm and 3.53 mm wire for Bersimis and Moose conductors respectively as per powergrid specification

# Galvanised Steel Earthwire Strand/ Groundwire Strand/Core strand for Aluminium Conductors (ACSR Strand)

**End Use :Earthwire for overhead transmission lines  
and core strands for aluminium conductors.**

**Specifications :BS-183, BS-215; ASTM-B-498; IS-2141/92; IS-12776; IS-398  
Part-2; is-398 Part-5; Powergrid specification and as per customer's specifications**

4.75	0.10	275	275	-	305

Note:

1. We can also produce 19 wire strand in sizes 1.40 mm and above
2. Zinc coating weight and uniformity of coating:
  - a) For strands as per BS-183 shall be as per BS-443
  - b) For strands as per ASTM 498 shall be as per Class A coating
  - c) For strands as per IS-398 Part-2 and Part-5 shall be as per IS-4826
3. Lay strength is usually 12-18 times that of overall strand diameter or as per customers' specifications
4. Lay direction of outer wire layer is usually right hand or as specified by customer
5. We can also produce as per other international standards and/or as per specific customers' requirements

Packing :

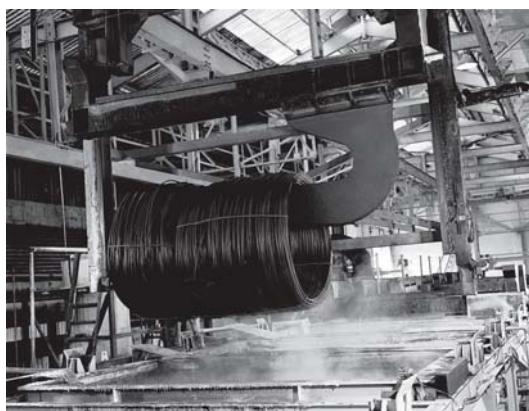

Supplied as per customers' requirement in wooden reels or in coils as per BS-183

# Mild Steel Round and Formed wires for armouring of cables

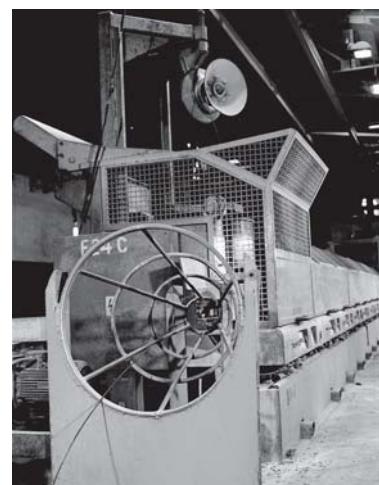

**End Use: Armouring of XLPE, PVC, Power and control cables for various voltage levels**

CA Formed 4.0x3.40 x0.80	-	NIL	Nil	-	110	-	70-100	21-23

Note

1. Uniformity of zinc coating as per various standards are as follows-
  - a) For wires as per BS-1442, uniformity as per BS -443
  - b) For wires as per IS-3975, uniformity as per IS-4826, Medium coating  
For 4.0 x 3.40 x 0.80 as per IS-3975, uniformity dips for force and 0.5 dips for edge
2. Resistivity 14.5 x 10 ohm -cm for all round wires and formed wires as per IS-3975
3. Resistivity 13.8 x 10 ohm-cm for all wires as per BS-1442
4. We can also produce as per other international standards and/or as per specific customer's requirements
5. Higher coil weights can be as per customers' requirements

Packing :

In coil form wrapped with  
polythene or polycoated hessian  
or as per Customer's Specification

**Some prestigious orders executed include:**

Product Details	Quantity	Client/Project
3.53mm ACSR Core Wire	2000 MT	Powergrid for North Eastern Grid through EMC Ltd.
2.21 mm ACSR Core Wire	250 MT	Powergrid 400Kv Naptha-Jhakari Project through Modern Malleables Ltd.
7/1.90 MM ACSR Strand	966 KM	RMI Steels for export to Iraq
7/3.66 mm Earthwire Strand	477 KM	Powergrid Talcher II Project Pkg.D through KEC International Ltd.
7/3.66 mm Eartjwire Strand	561 KM	Powergrid Talcher II Project Pkg C through Jyoti Structures Ltd.
7/3.66 mm Earthwire Strand	610 KM	Powergrid Talcher II Project Pkg B through Kalpataru P.T. Ltd.
7/3.66 mm Earthwire Strand	558 KM	Powergrid Talcher II Project Pkg E through Hyundai Engineering Ltd.
7/3.66 mm Earthwire Strand	734 KM	Powergrid Talcher II Project Pkg A through Hyundai Engineering Ltd
Various sizes/constructions of Earth wire stand	530 MT	Bullivants Pty. Ltd., Australia
7/4.00 mm Earth wire stand	350 MT	Electricity Authority of Cyprus, Cyprus
19/2.16 mm Earth wire stand	1000 MT	Midal Cables Ltd., Bahrain
Various sizes/constructions of Earth wire stand	400 MT	Necks LB Material AB, Sweden
