Dear: Maint Manager & Purchase Manager

Subject: Letter of Introduction

We are Pune based company engaged in manufacturing & supplying of the Machine tools. Protective covers i.e. Thermal welded Bellows, Telescopic covers, wipers, Rollway covers & Apron covers Drag Chain, & Cable Drag chains & Telescopic spring etc.

We manufacture protective covers for indigenous and imported GP, NC & CNC machines strictly as per Requirement of our valued customer and take the complete product development responsibility from Dimensions confirmation, designing, manufacturing and finally up to installation.

Besides this we do also undertake repairs & refurbishing activity of the covers (Telescopic & Rollway cover) in which we repair & rebuild your old damaged covers to new condition at a fraction of the cost of new one.

We have been serving to more than 300 small, medium & large scale customers from machine tools Automobiles, Auto ancillaries, Engineering & steel industry for last 5 years. Our customer list is quite huge However few of them are KSB Pumps, Mahindra & Mahindra, Reliable Autotech, Bharat Forge, Amtek Auto, Kalyani Thermal Systems, JCB, Hyundai, Mather Platt, Force motors, Cummins India, Elecon Group GPI & Many more

To avoid the downtime & to run the CNC machine without protective covers we always recommend our Valued customer to pre plan well in advance for the preventive maintenance of existing covers and Development activity of the new Covers to keep their valued machines always in healthy running Condition

Our sound technical team is well supported by highly experienced staffs that are competent enough to shoulder the responsibility of designing the process equipment's. The hierarchy is well defined and different functional responsibilities are held by personnel with adequate experience and exposure in respective discipline.

Our technical team is empowered with state of art manufacturing facility that consist of

1. Laser Cut Machine.
