

Salasar Carbonic Private Limited

<http://www.salasarcarbonic.com/>

We are engaged in manufacturing and supplying a comprehensive range of Oxygen Gas, Carbon Dioxide, Liquid Nitrogen, Nitrogen Dioxide Gas, Argon Gas, Helium Gas, Ammonia Gas, Solid Carbon Dioxide & many more.

About Us

We are **manufacturing & supplying Oxygen Gas, Carbon Dioxide, Liquid Nitrogen, Nitrogen Dioxide Gas, Argon Gas, Helium Gas, Ammonia Gas, Solid Carbon Dioxide & many more**. These industrial gases are checked and inspected thoroughly while being packed within appropriate containers for flawless output and quality.

Started this business in **1995** when we started our venture at **Jaipur, Rajasthan**. We are a well known manufacturer and supplier of Gases. The company is also a renowned provider of used and refurbished industrial gas production and storage equipment, along with related engineering, construction, installation, start up operation and maintenance services. All these products are in compliance with set international norms.

The firm is backed by a well developed infrastructural facility comprising production unit and quality control facilities. The unit is equipped with all the necessary tools and equipments that assist in fulfilling bulk orders in stipulated time. In a very short span of time, our industrial gases have got wide recognition and giving competition to some national players of high priced products in this segment.

Owing to our hard work and untiring efforts, we are able to deliver the wide range of products that precisely meet the clients' specific requirements and thus attain maximum satisfaction. Today, our company is enjoying overwhelming success in the market and it has been possible owing to our...
