

Natural Stone Mosaics

Nature is just a Tile away...

regular mosaics

Mosaics are put together using smaller stone or glass pieces in an orderly or random fashion. They can be created using small pieces of similar shape and color, or by using chips that vary vastly in cut, color and design. Arranged in spiral, planar or randomly mixed patterns, mosaic wall tiles have timelessly been used for ornamentation of imperial and artistic spaces.

Natural Stone Resilience

Natural stones are known for their durability and weather-resistance. Stone mosaics, whether installed in interior or exterior spaces, are easy to clean and require minimum maintenance. Combined with the sheer diversity of colors, patterns and textures, natural stone mosaics are the perfect complements for all commercial and residential areas.

mural mosaics

The extravagant magnificence of stone murals combines with the vivid formations of stone mosaics to create Mural Mosaics. To create imperial bearing and sophistication, the mosaic tiles are complemented with intricate engravings in forms of vines and foliage. Swirls of patterns run through the tiles, splashing them with beauty and splendour expected to be found in luxurious palaces.
